Oregon Class Championships: November 5-6

Format: 5-round US Chess rated Swiss in seven sections, Master and Expert (2000+), Class A (1800-1999), Class B (1600-1799), Class C (1400-1599), Class D (1200-1399), Class E (1000-1199), and Class F and below (U1000). Some sections may be combined based on the number of players in a section. The official November US Chess OTB regular ratings are generally used for section eligibility and pairings. Unofficial US Chess OTB regular ratings or alternate ratings (with adjustment if necessary) are generally used for players with no official US Chess OTB regular rating. Players may play up only one class (this means players rated under 800 cannot play up a section as playing up a class would still put them in the Class F and below section). Up to two half-point byes are available if requested before round one.

Time Control: G/90 (ninety minutes per player with a ten second increment at the start of each move). **PLEASE BRING AN INCREMENT CAPABLE DIGITAL CLOCK AS NONE ARE SUPPLIED** (sets, boards, notation sheets, and pens/pencils are provided).

Schedule: A players meeting is at 9:45am Saturday. The rounds are at 10am, 2:15pm, and 6:30pm on Saturday and 10am and 2:15pm on Sunday (remember to set your clocks back an hour on Sunday morning for the end of daylight savings time).

Entry Fee: \$70. Add \$35 play-up fee if you play up a class. Free entry for GM's and IM's (up to \$70 is deducted from any prize won). US Chess membership is required for all players. Oregon Chess Federation membership is required for Oregon residents and may be purchased on site.

Registration: THIS IS A 100% PRE-REGISTERED EVENT. NO ON-SITE ENTRIES WILL BE ALLOWED. There are two different ways to pre-register: 1) Preferred: register online at onlineregistration.cc (note: you must pay the entry fee on the website via credit/debit/PayPal to complete an online registration). 2) Send your registration information (player name, US Chess ID, section, any bye requests, address, and email) and a check payable to the Oregon Chess Federation for the entry fee and if applicable US Chess membership fee to Mike Morris at 2344 NE 27th Ave, Portland, OR, 97212. Registration deadline is Thursday, November 3 EOD.

Prizes: \$3500 based on 75 players. The prize fund is adjusted proportionally if there are a different number of players except \$1750 is guaranteed. Each section has the following overall prizes: 1ST-\$250, 2ND-\$150, 3RD-\$100. Prizes are combined and split if there is a tie.

Location: Lloyd Center DoubleTree Hotel, 1000 NE Multnomah St, Portland, OR 97232. There is free parking in the hotel parking garage. For reservations, call 1-800-996-0510.

Other: Sponsored by the Oregon Chess Federation; qualifier for the Championship and Challengers sections of the Oregon Closed and qualifier for the OSCF State Championship. Send an email to support@oregonchessfed.org if you have any questions or need to withdraw during the event.

Shades Of *High Fidelity*

(What Really Happens At A Record Store)

Karen Schmidt

I am in a casual Sunday chess meetup group which meets in Pioneer Square—the oldest section of downtown Seattle. (Come on down to Caffe Umbria about 10:00 AM on Sundays and join us! 320 Occidental S.) A couple months ago, one of the guys started telling the rest of us about a t-shirt store on The Ave in the University District, where the owner was offering \$40 in free merchandise to anyone who could beat him at a game of chess.

After about three mentions by my friend—and three losses to the owner—I decided to stop in one Sunday and find out who this guy is. It was a bit of a challenge to find the shop, not knowing the owner's name, the shop name, or the exact address. It turned out to be a 1970s-style record store (Seattle Records,

5521 University Way NE)—but he does have a rack of t-shirts for sale out front.

I had a brief conversation with the owner, Ken Tomkins, that day, and confirmed the \$40 free merchandise offer. When I got home, I looked Ken up on the US Chess ratings lookup website, and much to my surprise, learned that Ken has a rating of 2376. (It turns out he is a FIDE Master...so the chances of winning \$40 free merchandise are slim to none.)

I decided to contact Ken to ask if I might interview him for a future story in *Northwest Chess* magazine. He seemed like a very interesting fellow. I showed up at 4:00 PM on the appointed interview day, and I remained there, hanging out for 90 minutes, all the while scribbling massive notes.

The record store looks like it was picked up in the 1970s and dropped into its current location: albums arranged by rock bands or artists; record players; boxes of 45s; *Meet the Beatles* 1960s album on display in the display case and priced at \$160; and yes, t-shirts both used and new, featuring bands and rock concerts. One of my favorite t-shirts that day was Pink Floyd, 1973, *Dark Side of the Moon*. Oh, and much to my amazement, there are new vinyl records which look exactly like the vintage albums (same cover art); the new remastered albums run about \$32 each. Think *High Fidelity*, the funniest movie I have ever seen, with John Cusack as a record store owner. I might have to get a record player myself down the road... I learned from Ken that he hosts all sorts of music/cultural events at the shop, including “open mic” night once a month, disco evenings, and more.

My secret passion is singing karaoke, so I am hoping to make it to an “open mic” night soon.

Ken must be older than he appears, because I learned that his peak chess years were during the 1980s and 1990s. The first time I had visited the shop, Ken told me that he had played (and beaten) Walter Browne in a 1990 tournament. I had never heard of Walter Browne, so when I got home, I looked Walter Browne up on the internet and learned that he had been the U.S. Champion six times. He was the reigning U.S. Senior Champion in 2015 when he died at the age of 66. He had two careers: professional chess player, and professional poker player. An aside here about my theory that chess players are also usually good at math and are musical. I fit that profile, as do many of my chess friends. I would add another skill to that theory: poker. I personally know several chess players who have been quite successful at poker—almost at the level of a second career. (If I weren't uber frugal, maybe I could have been good at poker, too...)

Ken is a true Seattle native, having attended Roosevelt High School. He also worked at The Last Exit on Brooklyn in the 1980s, a well-known chess and coffee hangout. Ken's uncle had taught him to play chess as a very young child (age 2-3) and by the time he was eight-years-old, he could beat all family members. He took a memorable trip to Mazatlán, Mexico that year with his aunt and uncle, and remembers winning a dollar at chess by beating his uncle, and playing chess with other kids at the beach. In his late teens, Ken took up chess again while working at The Last Exit on Brooklyn. He remembers playing thousands of games with Viktors Pupols, Michael Spiegel, Jim McCormick, and other local chess players of the day. At the age of 17, Ken won the \$1000 first prize at a Seattle tournament, in the U1800 section. Around that same time, he also tied for first place in the New York Open, splitting the \$2500 prize.

Ken has an adult daughter and son, and he currently lives in the north end of Seattle. Over the years, he has owned a hair salon (Signatures) in Belltown in Seattle, was in real estate for a few years, and currently co-owns a publishing company called Multi-Lingual Books. During our lengthy in-person interview I was intrigued to learn that Ken has recently written a chess book! I mentioned that I write a monthly story for

The Simul in front of Seattle Records. (L) Elliott Zackrone and Randy Myer. Photo credit: Karen Schmidt.

Northwest Chess magazine, and before I knew it, he commented that he needed a proofreader for his new book and asked me if I'd like to do it! After establishing that I wouldn't do it for free, and after I got home that day, I sent him a couple links to previous stories I have written for *Northwest Chess*. (I wanted to assure him that I didn't just make that up, since he didn't know me from Adam.) He opened Seattle Records in October of 2021.

So... over the past few weeks I have finished proofreading and editing a great little chess book geared for beginners and chess clubs. It is a book of mate-in-one puzzles—one on each of the 64 squares of the chess board! However, it is more than a puzzle book—as it has a chess quotation along with each mate problem—and artwork as well. I got a huge kick out of the chess quotations as I worked my way through the book because I had never really googled or otherwise read “chess quotes.” Two of my favorites are the Tartakower observation that he “prefers to sacrifice his opponent’s pieces,” and the Susan Polgar quotation that she “has never actually won a game against a fully healthy man.” As the only female chess player at Westlake Park in Seattle, I have won quite a few games after which it turned out that my opponent was feeling poorly, had a headache, allergies acting up, was distracted because I moved too slowly, and so on...

After I told my Sunday meetup group about Ken being a FIDE Master and having written a mate-in-one puzzle book, one of my friends suggested that maybe Ken would be willing to play a Simul for fun against us—the informal Caffè Umbria Sunday Chess Club! Ken was more than agreeable to this idea, and we did in fact play him one Sunday in August, on the sidewalk in front of his record store. There were seven of us altogether—four of us from the Umbria

group, the boyfriend of a gal who was working at his shop that day, and two passers-by—one of whom was a Portland, Oregon chess player up in Seattle for the weekend. Ken won all the games. But I was extremely happy to last 51 moves in my game.

Ken was away from chess for several years but took it up again in a serious way about three years ago. Since then, he has played in [chess.com](https://www.chess.com) and [lichess.org](https://www.lichess.org) online tournaments, and played in a major tournament in Vancouver, BC (Canada). In his peak chess years, he has beaten four Grandmasters, and played speed chess with Elena Donaldson, Georgi Orlov,

Ignacio Perez and other major local players.

The Tomkins book will be a hit with chess kids and would make an excellent teaching tool at chess clubs, summer camps, or chess schools. It will be out soon in paperback, and Ken will be doing a promotional Simul, lecture and book signing at the Seattle Chess Club—which is in the planning stages.

If you are interested in playing in the simul, please contact me via email at karenkarkau@gmail.com. The SCC meets at the Orlov Chess Academy near Green Lake, in North Seattle.

Collinge Perfect In Sixth Seattle Classic

Josh Sinanan

The Sixth Annual Seattle Chess Classic, a marathon chess tournament held during the dog days of summer, was held at the Orlov Chess Academy in Greenlake August 13-17, 2022. Chess players from throughout the Pacific Northwest were represented in the modest 12-player field, from cities including Seattle, Gig Harbor, Snoqualmie, Sultan, Bellevue, Issaquah, Redmond, Mercer Island, and Bothell. The event was hosted by the Washington Chess Federation and directed by the legendary Senior TD Fred Kleist. The event was run as a single U1900 section due to the cancellation of the Open section caused by lack of players. Despite the paltry turnout, the players all enjoyed themselves and had fun competing in the grueling nine-round Swiss tournament, which spanned four and a half days during the tail end of summer in the Pacific Northwest!

Top seed Max Collinge (9.0, 1874 → 1874) from Gig Harbor cruised to victory with an astounding, Fischeresque perfect score of nine wins from nine games! Despite several underrated newcomers in the field, Max was consistent in his approach and carefully prepared for each game. Due to the heavy Seattle summer traffic and construction along the I-5 corridor, Max found it easier to stay in Seattle for the afternoon and commute back home to Gig Harbor in the evenings

once the traffic had died down, which further enhanced his preparation game by game. David Marcellia (6.5, 1001 → 1108) from Issaquah and Akiva Notkin (6.5, unrated → 1122) from Seattle shared second/third place honors two and a half points back after a tense draw against each other in the first

round. William Cummins (6.0, unrated → 964) from Snoqualmie was awarded the first U1800 prize with six points, finishing the tournament strong with an undefeated five points from his final six games. Two up-and-coming youngsters, Zoe Xu (4.0, 768 → 794) from Bellevue and Anay Singh (4.0, unrated → 771) from Bothell shared the first U1600/U1400 prize with four points apiece, each playing all decisive games along the way. Anay has kindly annotated two of his games, including the one against Zoe, for the *Northwest Chess* readers to enjoy. Luke Dale (3.5, 1083 → 926), a high-school student from Snoqualmie, claimed the first U1200 prize a half-point back to round out the overall prize winners.

With several special prizes on the line, including Best Female Player, Biggest Upset (per round), and Best Dressed (per day), playing fighting chess while wearing stylish attire was highly encouraged throughout the event! Upset prizes were awarded to the highly underrated Akiva Notkin in rounds one-three and seven-eight, while middle school student Will Cummins was the fortunate upset prize recipient in rounds four-six and nine. Zoe Xu, a third grader from Somerset Elementary School in Bellevue, claimed the Best Female prize. The Best Dressed prizes were awarded to Erik Choi

(Saturday), Emily Huang (Sunday), Akiva Notkin (Monday), and Zoe Xu (Tuesday-Wednesday). Congratulations to the winners, and many thanks to all who contributed to this delightful event!

Two Games From Anay Singh

My name is Anay Singh, and today I am going to show two of my favorite games that I played in the Seattle Chess Classic. My first game I want to show was against Zoe Xu. Before this round I felt very hyped as I had won in round five. In this game I was White, and Zoe Xu was Black. I liked this because I could sort of decide the opening, so I didn't have to worry about not knowing a variation.

Anay Singh (1110) – Zoe Xu (1353) [C54]

Seattle Chess Classic
Seattle, WA (R6), August 15, 2022
[Anay Singh]

1.e4 e5

This is the opening I have studied the most, so I decided to play it because Black was higher rated than I was.

2.Nf3 Nc6 3.Bc4 Bc5 4.c3

The Giuoco Piano: Main line.

4...Nf6 5.d3 d6 6.h3 a6 7.0-0 h6

When I analyzed the game, I saw stockfish wanted me to play 8.a4 which I didn't play. At this point Black was playing fast, so I thought Black new this opening very well.

8.d4 exd4 9.cxd4

I have gained full control of the center, and I liked that.

9...Bb6

Getting his bishop out of the way.

10.Nc3 0-0 11.Bf4

This takes away all of my advantage because of 11...Nxe4!

Position after 11.Bf4

11...Re8

11...Nxe4 12.Nxe4 d5 If you retreat the

bishop or knight you will lose a pawn, and the same if you capture on d5 with the bishop, so you must play 13.Bd6 attacking the rook. Now Black should play either ...dxe4 or ...cxd6. After ...cxd6, you just play a normal game, so I will show what happens after ...dxe4. 13...dxe4 14.Bxf8 exf3 15.Bc5 Bxc5 16.dxc5 Qh4 attacking the bishop on c4 and threatening to take the pawn on g2 and then take the pawn on h3. 17.Bxf7+ Kxf7 18.Qxf3+ and the computer says you can hold this endgame.

12.Qb3

I forgot about ...Na5 which would make me loose a pawn, although the engine finds a way to save the pawn, but that would lead to a damaged pawn structure.

12...Na5 13.Qa4 Nxc4 14.Qxc4 Nxe4 15.Nxe4 Rxe4 16.Be3 d5

This isn't a bad move, but is the reason he lost.

17.Qc3 Qf6 18.Ne5 Rh4 19.Kh2 c6

Preparing to bishop to c7. Black can win two pawns by playing 19...Bxh3 20.gxh3 Qe6 21.Bxh6 Bxd4.

20.Rfd1?? Bc7

20...c5 and if I played 21.Nf3 (21.Qb3

cx d4) 21...Rxb3+ and I should move back, but if I played 22.gxh3 Qxf3 then Black will likely win the game.

21.f4 Bxe5 22.dxe5 Qg6 23.Rd4 Qh5 24.Bf2 Bf5 25.Bxh4 Qxh4

I felt confident I should win the game.

26.Rf1 Re8 27.g4 Bxg4 28.f5 Rxe5 29.Rxg4 Qe7 30.Rfg1 Re2+ 31.R1g2 Qe5+ 32.Qg3 Rxg2+ 33.Kxg2 Qxg3+ 34.Kxg3 Kf8 35.Rb4 c5 36.Rxb7 d4 37.Rc7 c4 38.Rxc4 d3 39.Rd4 a5 40.Rxd3 Ke7 41.Ra3

At this point Black resigned the game. I was very happy that I won this game as it was my first win against a 1350 US Chess Federation-rated player.

Anay Singh (1110) –
Aneesh Vashisht (1234) [C50]
Seattle Chess Classic
Seattle, WA (R3), August 14, 2022
[Anay Singh]

My second-favorite win from the tournament.

1.e4 e5 2.Nf3 Nc6 3.Bc4 f5 4.d3 Bc5 5.Nc3 fxe4 6.dxe4 h6

Here I could have taken on g8 and then played Qd5, but I didn't see it.

7.0-0 Nf6 8.Re1 d6 9.Nd5 Be6 10.Nxf6+ Qxf6 11.Bxe6 Qxe6 12.Be3 Bb6 13.Nd2 0-0 14.Qe2 Nd4 15.Qd3 Qf7 16.Nc4 Bc5 17.c3 Nc2 18.Qxc2 Qxc4 19.f3 Bxe3+ 20.Rxe3 Qc5 21.Rae1 Rae8 22.Qb3+ Kh8 23.R1e2 b6 24.Kh1 c6 25.h3 d5 26.exd5 Qd6 27.dxc6 e4 28.Rxe4 Rxe4 29.Rxe4 Qxc6 30.Qa4 Qc8 31.Qxa7 Qc5 32.Qe7 Qc8 33.Qe5

At this is point, I was confident that I would win the game, although the game did go on for 27 more moves because it took me that long to convert this game into a win.

33...Rd8 34.Rh4 Kg8 35.Re4 Qa8 36.Qe6+ Kh8 37.Qxb6 Rb8 38.Qe3 Rd8 39.Rd4 Rb8 40.Qd2 Qa5 41.b4 Qc7 42.Rd7 Qb6 43.Qd4 Qa6 44.Rd8+ Rxd8 45.Qxd8+ Kh7 46.Kh2 Qe2 47.Qd4 Qxa2 48.c4 Qa4 49.Qd3+ Kh8 50.b5 Qb4 51.Qc2 Qd6+ 52.Kh1 Qe6 53.Qb1 Qxc4 54.b6 Qc8 55.b7 Qb8 56.Qb5 Kh7 57.Qf5+ Kh8 58.Qc8+ Qxc8 59.bxc8Q+ Kh7 60.Qf5+ Kh8

And I won by resignation. I also liked this game because Aneesh Vashisht was a 1200-rated player.

ICA Supports Ukrainian Refugees

Dear Idaho Chess Association, We want to thank you for donating ten chess sets and financially supporting our humanitarian trip to Romania to help Ukrainian refugees displaced by war.

By virtue of your organization and other donors, it was a very fruitful trip.

It took us about 24 hours to get from Boise to Bucharest, Romania. We brought with us 12 large suitcases of food, medicine, and vitamins, totaling 500+ pounds.

We had three full days in Bucharest, during which our family was extremely busy. Most of the time was spent on shopping for more groceries, baby and hygiene products, and then packing them into boxes to be transported to those in need. At several stores, we bought all of their inventory of certain jams, cereals, and other items. Thanks to all the donations, we were able to purchase humanitarian aid for thousands of US dollars in Romania.

All monetary donations were used for purchasing food and other supplies for the Ukrainian families. We paid our own expenses for travel and lodging, as well as for transportation of all of the humanitarian relief to the places where it was needed.

There are two organizations we worked with in Romania. One of them even under perilous war conditions transports the supplies to most affected Ukrainian cities. We had an opportunity to share peanut butter jars that we brought from the US with 150 households in one of those cities. In addition, we purchased two pound buckets of jelly, some cereal, and coffee for each box of supplies. It was a big blessing to families in the city of Kharkiv located in Eastern Ukraine.

The other non-profit organization opened a center for refugees near the border of Ukraine and Romania. They provide a temporary shelter, feed the families meals, and work with them through the stress and trauma caused by the war.

The government of Romania allows Ukrainians to enter the country, but they do not provide any monetary or other types of assistance. This kind of help provided by the refugee center is crucial for families in the beginning while they are figuring out what to do next. We purchased groceries, diapers, and feminine products for this center. We gave them the chess sets that you provided and also

purchased additional board games, puzzles, and some other little gifts. Playing games helps refugees, especially children, to deal with the anxiety and shock of the war they have escaped from. This organization also has connections in Ukraine where they help displaced families. Some of the donated items were sent there as well.

It took us over 27 hours to get back to Idaho. We came back tired, but our hearts are full. It really is more blessed to give than to receive.

Back 2 School Quads

By Adam Porth

Coeur d'Alene, ID—August 27, 2022

The Back 2 School Quads literally blew into Coeur d'Alene as chess players braved a tournament “like nothing [they] experienced before,” as Michael Cambareri quipped. Quads are a popular form of chess tournament where competitors are divided into groups of four based on their ratings and players engage in a round-robin tournament. These quads were G/45;d5. Twelve players arrived with beautiful weather and the sun shining on the chess boards waiting for gambits, sacrifices, and checkmates.

By round one, clouds rolled in—threatening rain—wind gathering speed, such that the vinyl boards acted like kites and occasionally wiping out 15 - 20 minutes of concentrated play. Additionally, smoke from a fire on the other side of Spokane permeated the air creating a diffused haze.

Players were cool about the wind for the first round as they paused clocks, reset, and continued. Soon all the boards were weighted down along the edges and the players immediately began round two and then round three—some donning their triple weighted sets. Adding to

the exciting tournament was a nearby wedding and a few family reunions. Applause from the wedding coincided with Michael Cambareri winning his round two game!

Chess organizer Adam Porth designed this tournament to be a visible sign that the chess community is vibrant

and available to the public and the players appreciated occasional public eyes. Three picnic benches were located prominently in the Coeur d'Alene Park in view of basketball courts, beach, playground, and pavilion. The casual atmosphere also encouraged player camaraderie and a sense of shared purpose.

Quad A winner won \$60

Quad B winners \$30 each

Quad C winners \$30 each

North Idaho Scholastic Chess League Formation

Adam Porth

The Idaho Chess Association is proud to announce the North Idaho Scholastic Chess League to allow students in north Idaho and eastern Washington to compete monthly throughout the upcoming school year. There are six tournaments planned with a two-month hiatus to allow for the regional scholastic qualifier and the state scholastic championships.

The locations are still being worked out but play is set to begin on Thursday, October 20 at the Coeur d'Alene Public Library beginning at 4:30 pm allowing for three G/25;d0 rounds and a three-hour timetable for the weeknight tournaments.

The excitement in scholastic chess is spreading and chess clubs are forming in many schools. The ICA wants to support and provide education and guidance to these clubs by offering a league where students of similar interests in chess can meet, compete, and learn. We are sure new friendships will also form. Teams can have as many players as they want.

Each monthly tournament will include sections for elementary, middle school, and high-school students. The sections are further divided into divisions with each section featuring an advanced group (A), beginner group (B), and

section for everyone else (C). Chess coaches or team captains will select one player to compete in the A group and B group to start each tournament. Everyone else is in group C. Winners of the B and C groups move up one level at each of the following tournaments. So, by the end of the season, some teams will have more than one player in the A and B divisions. Team points are scored from the total scores of players in divisions A and B. At the end of the season, the team with the most points amongst the sections will win top honors. Each section will crown a top team. Individually, players that win their group will earn a medal.

We are looking for donations to support each of the tournament's awards and snacks. We are hoping that this preliminary

model will be successful and encourage beginners and new chess players to compete with players of similar age and ability while enjoying the program and the chess. Registration and information can be found at the ICA website, <https://www.idahochessassociation.com>.

2022 Seattle Classic Scholastic

By Josh Sinanan

The 2022 Seattle Classic Scholastic chess tournament was held online via Chess.com from Saturday August 27 – Sunday August 28. Scholastic chess players in grades K-12 participated from throughout the Pacific Northwest, including the cities of Sammamish, Bellevue, Redmond, Bothell, Woodinville, Mill Creek, Kirkland, Maple Valley, Olympia, Seattle, Duvall, Kenmore, Fall City, Vancouver (WA), and Vancouver (B.C.)! The event was hosted by the Washington Chess Federation and directed by WCF Scholastic Director Rekha Sagar.

A total of 55 courageous chess warriors competed across four sections separated by grade level and rating: K-3 U1000, 4-12 U1200, K-12 Open (one-day) and K-12 Open (two-day). The two-day K-12 Open section, in which the highest finishing K-5 and 6-12 Washington State residents won free entry into the 2022 Susan Polgar Foundation National Open for Girls & Boys on October 22-23, featured a classical time control of Game in 75 minutes with a 30-second increment with five rounds over two days.

The one-day sections featured the more typical format of five rounds of Game in 25 minutes with a five-second increment over one day on Saturday 8/27. Due to smaller than expected turnouts in several of the Open sections, the K-3 Open and 4-12 Open sections were merged into a single K-12 Open (one-

day) section and the K-5 Open and 6-12 Open sections were merged into a single K-12 Open (two-day) section. This year's free entry winners into the 2022 SPFNO were Lucas Liu (who tied for first with Arnav Gadde but had higher tiebreaks) and Leonardo Wang, by virtue of being the highest finishing K-5 and 6-12 W State residents, respectively.

Congratulations to the following champions, and many thanks to all who contributed to this fantastic event!

Section	Champion(s)
K-3 U1000	Kala Balasubramanian (5/5) - Champion!
4-12 U1200	Yuchang Yang, Ever Sun Huang & Oliver Wakeman (4/5) - Co-Champions!
K-3 Open (1-day)	Dann Merriman (4/5) - Champion!
4-12 Open (1-day)	Samuel Cha (4/5) - Champion!
K-5 Open (2-day)	Lucas Liu & Arnav Gadde (4/5) - Co-Champions!
6-12 Open (2-day)	Leonardo Wang (4/5) - Champion!

Detective Cookie Chess Tables At Othello Park International Festival

By Josh Sinanan

On Sunday, August 14, several hundred people gathered at Othello Park in South Seattle for a family-friendly afternoon of food, fun, and festivities. The event, formally known as the Othello Park International Festival, featured a dazzling

array of diverse performances, delicious local cuisine, arts & crafts, games, and several local vendors.

Among the arts and games present were Detective Cookie's Chess Tables, in which chess players young and old from all walks of life gathered to play chess under an outside tent! Seattle Police Detective Denise "Cookie" Bouldin, who runs a popular chess club for youth at the nearby Rainier Beach Community Center, was onsite the entire time as the host of the chess tables!

WCF President Josh Sinanan made a special visit and played a few chess games with several of the young aspiring players, many of whom have refined their skills at Detective Cookie's weekly chess club gatherings. The weather was sunny and pleasant, which necessitated a group trip to the ice cream truck for a mid-afternoon popsicle break!

This event, along with several others,

has built anticipation for the September 24th Grand Opening of Detective Cookie's Chess Park, located in South Seattle on the corner of S. Barton Place and Rainier Avenue. The new chess park is a symbol of Detective Cookie's vision: to inspire and empower local youth by providing them with the life skills learned through chess.

The project, several years in the making, has culminated with the creation of a public park in Rainier Beach, Seattle, where chess can be played outdoors on built-in chess tables and on a giant in-ground chess board. Be sure to make a trip to the newly opened Detective Cookie Chess Park and check it out for yourself!

Seattle Kings vs Princes Match VIII

By Josh Sinanan

The eight edition of the Seattle Kings vs Princes Match took place July 29-31, 2022, at the Orlov Chess Academy in Greenlake. The event, which featured a Tri-rated (US Chess + FIDE + NWSRS) five v five Scheveningen team match and an eight-player Swiss tournament, was directed by Senior TD Fred Kleist and hosted by the Washington Chess Federation. This marked the first Kings vs Princes Match since December of 2019, back in the good old days before the world was upended by the COVID-19 pandemic.

The match featured two evenly matched five-player teams, each with an average rating close to 2100. The Princes team, led by soon-to-be chess masters Yu-Cheng Liang and Advait V Vijayakumar, came out swinging in the first round and gained a one-point lead thanks to victories by Vijayakumar and Liu. Despite several promising positions for the Kings in the first round, only King Sinanan was able to score the full point with a quick knockout against Min's Kings Indian.

The Princes retained their one-point lead after a split second round, with Vijayakumar and Liu scoring again, but Colombo and Gottumukkala scoring for the Kings. A tense third round ensued, with three draws led by the king drawmaster Vignesh Anand and only Prince Vijayakumar and King Sinanan able to reel in the full points. The Kings struck back in round four led by victories at the hands of Kings Sinanan, Colombo, and Gottumukkala, which gave the Kings team a slim one-point lead heading into the fifth and final round. With Prince Vijayakumar, now sitting at a perfect four wins from four games, set to play King Anand, who had drawn all of his games thus far, someone's streak was bound to end.

Alas, soon enough a drawn rook ending was reached in a peaceful Catalan, and the Kings were one step closer to reclaiming the crown. However, with clutch last round victories by Princes Liu, Liang, and Min, the Kings' lead slipped

Final Score: Princes 13 - Kings 12

In the eight-player Princely Swiss, which was held alongside the Kings vs Princes Scheveningen Team Match, Edward Cheng from Detective Cookie's Chess School in Seattle was crowned as King with an impressive 4.5 points from five games. Along the way, Edward allowed only one draw against second place finished WCM Mary Kuhner from Seattle, who has played in several Kings vs Princes Matches in past years.

Huy Le, a young adult chess player from Seattle, claimed first U1600 honors with 2.5 points.

Twenty-Four Washington Players Brave The Heat In Rancho Mirage

Josh Sinanan

The 122nd Annual US Open was held July 30 – August 7 at the luxurious Westin Rancho Mirage Golf Resort and Spa in Palm Springs, CA. Twenty-one Washington players competed in the one-section, 9-round Swiss Tournament. WCF President Josh Sinanan and ICA President Adam Porth were also on-site. Adam was on the tournament directors staff while Josh represented the Northwest states at various meetings and settled into his new role as a member of the Scholastic Council.

Congratulations to the following WA players who competed in the US Open:

Stephen Willy (6.0, 1963 → 1983) – 56th Place

Yu-Cheng Liang (5.5, 2122 → 2123) – 68th Place

Ananth Gottumukkala (5.5, 1989 → 2013) – 84th Place

To reroute the bishop on d7 to b5 and hopefully trade my inactive bishop for either the excellent c4-bishop or the knight. I wanted to play ...b5, but that would shut doors on my bishop, so I played ...Na7 to allow a beneficial trade.

Following through with my plan of trading pieces to hold a draw with a national master.

25...Kf8 26.Ke3 f5

A well timed move to disrupt the white pawn chain. Taking f5 would be a terrible idea as White’s pawns would be weakened.

Probably better to trade pawns and play Be5, but I thought I could plant my bishop

on f4.

28.Kd3 fxe4+ 29.fxe4 Bf4 30.Bg1 Nf7 31.Bd1 Ke8 32.h4

This position should be a draw after ...Be5, ...Nd6 and ...b5. I saw this idea but thought it was risky with the move a4 coming in to attack my pawns, but the game should still be a draw.

32...Kd7 33.Kc4 Bd6 34.Bb6

Allowing the bishop to enter my position on b6 was a mistake as White can harass my king with Ba4+.

Position after 37.Kd4

Best move was to play ...Bf2+ and take b6-bishop to hold an opposite-colored bishop endgame. However, I thought White would have too much activity with their king going to take the kingside pawns.

Closing down the queenside to finally breakthrough on the kingside.

19...Qd8 20.Nh4 g5 21.Nf5 Nd7 22.h4

Traded bishop for knight to stop any kinds of counterplay on the queenside. Now I should be winning by getting my queen out as my plan of attacking the kingside is coming to fruition.

Beautiful pawn mate from a position where I just attacked the kingside and where my opponent failed to stop my play against their king which eventually led to the downfall of Blacks king. Anand beats Aronian.

This is all theory in the Semi Slav, although the current position isn't so bad after I play Nc3 a4 and then Ne4. However, I thought Black would have time to consolidate his queenside pawns so I just played a4 immediately which allowed a tactic by Black.

2022 Washington Summer Rapid Championships

By Josh Sinanan

The 2022 Washington Summer Rapid Championships were held online via Chess.com on Saturday, August 6. Scholastic chess players in grades K-12 participated from throughout the region, including the cities of Bellevue, Bothell, Kirkland, Seattle, Issaquah, Snoqualmie, Redmond, Olympia, Bellingham, Clyde Hill, Duvall, Woodinville, Mukilteo, Vancouver (WA), Mission (BC), and San Diego (CA)! The

event was hosted by the Washington Chess Federation and directed by WCF Scholastic Director Rekha Sagar.

A total of 38 intrepid chess warriors competed across four sections separated by grade level and rating: K-5 U1000, K-5 Open, 6-12 U1200, and 6-12 Open. Rather than the traditional five rounds of game in 25 minutes, the event featured a marathon seven-round rapid chess schedule with a time control of game in 15 minutes with a 10-sec increment per move! The play was fast and furious, with players showing off their speed chess skills that many have developed by playing online chess over the past few years. Congratulations to the winners, and many thanks to all who contributed to this fun event!

Section	Champion(s)
K-5 U1000	1st Place - Vidur Raghunathan (7/7)!
K-5 Open	1st Place - Dann Merriman (7/7)!
6-12 U1200	1st / 2nd Place - Rhadean Rubaiyat & Krishna Khandelwal (6/7)!
6-12 Open	1st Place - Gordon Winter (6/7)!

2022 Northwest Summer Chess960 Open

By Josh Sinanan

The 2022 Northwest Summer Chess960 Open was held online via Chess.com on Sunday, August 7, 2022. Chess players from throughout Washington State were represented in the modest five-player field, from towns including Seattle, Bothell, and Redmond. In Chess960, also known as Fischer-Random Chess, the back-rank pieces are randomly scrambled each round, with the stipulation that the king must be between the two rooks, and the bishops must be on opposite colors. Under such conditions, players must adapt to the new starting position and come up with new ideas and strategies on the fly, rather than relying on book knowledge and memorization.

The event was hosted by the Washington Chess Federation under the direction of WCF Adult Scholastic Director Rekha Sagar, who ran the tournament from her home in San Diego, California. WCF Tournament Coordinator Valentin Razmov and WCF President Josh Sinanan coordinated with Rekha to organize the tournament. The five-round Swiss tournament, which was originally intended to be split into two sections, Open and Reserve U1500, was combined into a single Open section due to the sparse turnout. Each round featured a randomly selected starting position of the back rank pieces, which the players had a chance to study for a few minutes before clocks were started.

The Razmov fellows, Gabriel and Valentin, playing all the way from Bulgaria, where they were visiting family on a summer vacation, emerged victorious with 4/4 and 3/4 points, respectively. After a first-round mini-upset, in which young Gabriel won against his father Valentin, the two Razmov chess gladiators battled through the middle of the night across 10 time zones away! A trio of ambitious juniors, Aneesh Vashisht, Rhadean Rubaiyat, and Anay Singh, shared Third Place and Best NW Player honors, each with one point from four games. Congratulations to the winners, and thanks to all who contributed to this delightful event. Somewhere, Bobby Fischer is smiling!

Initial Chess 960 Position:

1.e4 e5 2.Bf3

This would not be my first choice. The a2-g8 diagonal looks like a much more active placement for the bishop. 2.c3!?!; 2.Ne3 or 2.Ng3 planning 0-0 also looks

natural.

2...Ne6 3.g3 Bf6?!

Why the fianchetto obsession? Let's take a look at an active possibility: 3...Ng5!? 4.Bg2? (4.Bd1 is the engine's "better" choice here, for what that's worth.) 4...d5! with threats of both ...Nh3+ and ...Nxe4, picking up the bishop for a knight, and likely leaving White with a serious kingside light-square weakness. 5.exd5 (5.h4 Nxe4 is something of a train wreck.) 5...Nh3+ 6.Bxh3 Bxh3; 3...0-0. is simple and conservative as well, just highlighting how much time White is taking to place one minor piece on a fairly passive square.

4.c3 g6?! 5.d3 Ng5?!

Now this move just costs a tempo, as h4 will kick it back where it came from. Prefer development with 5...Nb6, perhaps, or even 5...h5.

6.Bg2 d6 7.h4 Ne6 8.Nh2 Ng7 9.Be3 Be6 10.d4

Somewhat unconventional development decisions over the last few moves have offered White good central control, and White accepts the gift.

10...0-0-0?

Position after 10...0-0-0

Connecting the rooks, but simultaneously self-entombing the black queen. What's worse, the king is not going to be safer on the queenside! A normal continuation might have looked something like 10...Nb6 11.Nc2 c6 12.Nf3 0-0, when White maintains a small advantage in space.

11.d5! Bd7 12.0-0-0?

Returning the favor! White should be looking for ways to open lines against the monarch. 12.c4 Nb6 13.Rc1 looks very dangerous. 13...c5 14.dxc6 bxc6 (14...Bxc6 15.b4 is even worse) 15.b4 and Black's king is the focus of attention. Chess960 openings are hard.

12...c6 13.c4?!

13.dxc6 still offers White good play despite his king being a bit of an obstruction now.

13...Qc7 14.Qc2 cxd5 15.cxd5 Qxc2+ 16.Kxc2 Be7 17.Rc1 b6?

That a-pawn isn't actually hanging (yet?), so this doesn't seem a necessary pawn move—limiting the a8-knight and leaving weaknesses in its wake. Instead 17...Kb8 18.Kb1, and it's a whole new game. Black even appears to have the better lever (...f5).

18.f4?!

18.Kb1+ Kb8 19.Nc2 f5 20.Bh6 with Nb4 coming, eyeing the a6 and c6 squares.

18...exf4

18...Nh5!?

19.Bd4?!

19.Bxf4

19...Rhg8

19...fxg3!? 20.Bxg7 Rhg8 21.Bd4 gxh2 22.Rxh2

20.gxf4 Nh5 21.Rhf1?

21.Be3!? Bxh4 (Perhaps the threat is stronger than the execution; in this case Black can wait, with the weakness of the h- and f-pawns remaining issues for White. 21...Nc7) 22.Nf1 Bf6 23.Nd2 with the center and tangled kingside pieces offering good compensation for the pawn.

21...Bxh4 22.Nf3 Be7

22...Bg3!

23.Ng5?

23.Be3

23...Nxf4? 24.Kd2+ Kb7

24...Nc7

25.Nxf7

25.Nxh7 Nxg2 26.Rxf7

25...Nxg2 26.Nxd8+ Bxd8

26...Rxd8 adds a guard for the bishop on d7.

27.Rf7 Bg5+ 28.Kd1 Bxc1 29.Rxd7+ Kc8

29...Nc7 30.Kxc1 Re8

30.Rxa7 Kb8 31.Rxh7 Be3 32.Nc2 Bxd4 33.Nxd4 Nc7 34.Nc6+ Kb7 35.Kd2 g5?

35...Re8 keeps some winning chances. Things are quite complicated here, with pins, passed pawns, active knights and rooks—it's very hard to navigate perfectly in practical play.

Position after 35...g5

36.e5??

36.Nd4! threatens Nb5, working the pin on the c7-knight and keeping an eye on the d6-pawn, from which, incidentally, a knight would fork b7 and c8. This appears to rescue the draw in all lines. One example: 36...g4 (36...Kc8 37.Nc6 Re8 38.Ne7+ Kb7 39.Nf5 Rd8 40.Nd4) 37.Nb5 g3 38.Rxc7+ Kb8 39.Re7! Ne3 40.Nd4! g2 (40...Nc4+ 41.Ke2 Ne5 42.Kf1 g2+ 43.Kg1) 41.Nc6+ Kc8 42.Na7+ Kd8 43.Nc6+ Kc8 etc.

36...dxe5 37.Nxe5 Rd8

Now Black converts the win fairly smoothly.

38.Nd7 Nxd5 39.Nf6+ Kc6 40.Nxd5 Rxd5+ 41.Ke2 Rf5 42.Rh6+ Kc5 43.b4+ Kxb4 44.Rxb6+ Kc5 45.Rb3 Nh4 46.Rg3 Ng6 47.Ke3 Kd5 48.Rg4 Ne5 49.Rb4 g4 50.Rb8 g3 51.Rg8 Rf3+ 52.Ke2 Ke4 53.a4 Rf2+ 54.Ke1 Nf3+ 55.Kd1 g2 56.Re8+ Ne5 57.Rg8 Rf1+

A nice upset in terms of both rating points and generations.

0-1

The 2022 Ignacio Perez Memorial Northwest Chess Grand Prix

Murlin Varner, cipherer

August added four events to the totals you see below, three in Seattle and one in Boise. This would include the Seattle Chess Classic which had a nice 3x multiplier over nine rounds, but only twelve entrants.

By the time you read this, September will be just about gone and with it the last glimmerings of summer. These included the Genise Wynell Memorial in Boise (one round a week on Mondays), the Seattle Chess Club September Quads, and their two-day Fall Open. That is all there was, so don't expect many changes in the standings next month. (There were no changes in the "others" this month, as only one such person played in those four events mentioned above).

October will have three to five events, with two sadly on the same weekend. First there is the monthly every Monday event in Boise. This event is FIDE rated. Then, there is the Washington Game/60 Championship on October 8. That event will be followed by a G/15 and Blitz Championship on the ninth, but those are too fast to be GP events. On the same weekend, the Norman Freidman Memorial moves to Coeur d'Alene, Idaho this year. It carries a \$1,000 guaranteed prize fund and a 3x multiplier in the Grand Prix. Although I do not have the dates at this writing, I expect the Seattle Chess Club will have two more GP events to round out October.

There are a few other events to start thinking about attending. In November, the Washington Chess Federation will be bookending the month with the Challenger's Cup (2x multiplier) on the first weekend and the Class Championships (expected to have at least a 4x multiplier) on the last. And, on December 16-18, the MexInsurance.com FIDE Open will be held in Boise. This event has \$10,000 in guaranteed prizes and an additional \$5,725 in based-on prizes. This will give it a Grand Prix multiplier of 6x. The last time I used a 6x

multiplier was for the Washington Open and Washington Class back in 2019. I might just have to close up my bookstore for a weekend and fly on down to Boise.

Data below current through September 1.
