

than he had in his mid-1980s 'Checklist.' Three I'd like to see are (i) Parnu Championship 1929 (Keres 2nd behind Virkus). (ii) Tartu, 15 February - 21 May 1935 (Keres 1st with 23/24). (iii) Kaunas, 17-26 March 1934 (a double Round-Robin of 4 players with Spielmann and Vistanekis 1-2= with 4/6). This one is particularly frustrating. In 'Checklist,' Gaige issued a call for HELP on this one. Luckis and Disleris were the other two participants, and I've never found their final scores. From Lithuanian newspapers, etc., I've found the result of every game in this tournament except the last-round game between Luckis and Disleris. Thus, if I could see their final scores, the crosstable would be solved. Spielmann did not give these scores even in his report on this event in 'Weiner Schach-Zeitung,' May/June 1934, page 163. There are still some magazines I haven't yet access to check for 1934, such as 'Deutsche Schachzeitung,' 'L'Echiquier,' and 'British Chess Magazine.']

The next most wanted would be the bulk crosstables 1936-1945.

I'm also missing the complete crosstables of the Riga Championships for 1945, 1950, 1952-1958. Gaige had a couple of these, but probably did not have the rest. (These missing crosstables were frustrating when I was trying to compile Tal's early career results).

"What plans do you have to use it?"

I have no set plan at this stage. I'm just collecting all crosstables (including matches and team events) I can find (especially before 1950), and this is an exciting exercise. But in particular, to help ensure their preservation. With the world's current state, who knows what disaster may happen? Something could destroy the internet, and dissemination could be complex. A copy of these crosstables in an out-of-the-way place like New Zealand might help preserve them. I may print them all out, though that means a lot of printing (but maybe I will eventually). But I will make sure to keep a copy on two separate memory sticks!

While the uses for the Gaige archive are many, and when we offered Edwards to host the site, I imagined quite a few uses for the archive, I never dreamed it would affect how New Zealanders examine chess in the Baltic states! As we grow other archival projects, we hope to continue to help chess scholars, authors, and journalists worldwide.

Note: The interview was edited for clarity and grammar and okayed by the interviewee.

Supplement (after the Interview) from Chris, (A Tribute to Jeremy Gaige):

In Gaige's May 1974 introduction to *Chess Tournament Crosstables, Volume IV (1921-1930)*, Gaige says (on page ii) "*It is sad indeed, for example, that no crosstable apparently exists for Amsterdam 1928 in which both Euwe and Reti participated.*"

And in your online copy of Gaige's 'Checklist' (revised: 01-06-1989), under 1928, Gaige says he doesn't have it, plus a handwritten note "HELP".

Then in the 'Crosstables 1925-1928' file, image 193, Gaige gives the small amount he does know about the event (and now giving the dates as December 1927—March 1928 [which I believe are still not correct]). He gives his source for what he does know as 'Weiner Schachzeitung', 1928, pages 76 and 116.

From the Dutch newspapers now online, I believe I have been able to construct this crosstable in full. Although the Dutch newspapers do not give full coverage, they give enough (just) to be able to impute the results they still have missing with 100% certainty (or so I think). Here is the final crosstable.

How did I arrive at this (the proof is below)

Amsterdam Chess Club "AchtKamp"
Circa 4. October 1927 - Circa 21 May 1928

	1	2	3	4	5	6	7	8	Total
1. EUWE, Mochgiels	X	½	½	1	1	1	1	1	6
2. SCHELFHOUT, William	½	X	½	½	1	1	½	1	5
3. RETI, Richard	½	½	X	1	1	0	1	½	4½
4. WILLEMS, J.	0	½	0	X	1	1	1	1	4½
5. ADDICKS, Johannes	0	0	0	0	X	1	½	1	2½
6. VAN HARTINGSVELT, Hendrik	0	0	1	0	0	X	1	0	2
7. KROONE, Gerard	0	½	0	0	½	0	X	1	2
8. GRAVES, Jan	0	0	½	0	0	1	0	X	1½

LOHR, J. also started, but withdrew after a loss to Euwe.

This event was a club event, and as club events tend to do, meandered on over several months (both Euwe and Reti completed all their games well before the event finished).

A short digression is needed here. An overall event organised by the Amsterdam Chess Club was a 'winter competition' over the 1927/8 year. In its top group were 17 players, but because of frequent absences during the season, Reti was only required to play the other top eight players. Likewise Kroone, who had a long commute. (See Source 1). Thus there was a semi-separate tournament of 9 players ('negenkamp').

Partway through, having lost a game to Euwe (see Source 2), Lohr withdrew and the 'negenkamp' became a 'achtkamp' (eight-athon) (see Source 5). This is the tournament that is being dealt with here.

I mention this to prove that the important result Reti-Willems 1-0, given in Source 3, is from this event and not some other event that Reti may have played in.

Source 2, dated 6 October 1927, gives results for the first round, plus a couple of games played in advance. Thus it could be supposed that play in the tournament began about 4 October 1927.

Source 11, quoting a 22 May 1928 date, says the tournament is "now completed". So it could be supposed that the tournament finished about 21 May 1928.

[Gaige in his partial crosstable [in the crosstables 1925-1928 file, image 193] gave only December 1927 to March 1928 as start and finish dates.]

Source 11 gives the Final scores:

1. Euwe 6-1
2. Schelfhout 5-2
3. Reti 4.5-2.5
4. Willems 4.5-2.5
5. Addicks 2.5-4.5
6. van Hartingsvelt 2-5
7. Kroone 2-5
8. Graves 1.5-5.5

Source 9 says that only Reti and Schelfhout were able to draw with Euwe; Euwe beat the rest.

Source 10 says that both Euwe and Schelfhout did not lose any games.

This gives a framework in which to work.

Analysis, Part 1

The following game results are directly given:

- Reti-Addicks 1-0 (Source 2)
- Euwe-Kroone 1-0 (Source 2)
- Reti-Willems 1-0 (Source 3)
- van Hartingsvelt-Reti 1-0 (Source 4)
- Euwe-Schelfhout 0.5-0.5 (Source 4)
- Reti-Kroone 1-0 (Source 5)
- Addicks-Schelfhout 0-1 (Source 5)

Source 5 then gives the following progress scores:

- Reti 3.5-1.5
- Euwe 1.5-0.5
- Schelfhout 1.5-0.5
- van Hartingsvelt 1-0
- Willems 1-1
- Graves 0.5-1.5
- Addicks 0-2
- Kroone 0-2

When the above games are taken into account in this progress score, this leaves:

Reti +0-0=1

Willems +1-0=0

Graves +0-1=1

Thus the remaining results must be:

Willems-Graves 1-0

Reti-Graves 0.5-0.5

Analysis, Part 2

From here, the following game results are given:

van Hartingsvelt-Euwe 0-1 (Source 6)

Willems-Schelfhout 0.5-0.5 (Source 6)

Reti-Euwe 0.5-0.5 (Source 7)

Source 8 then gives the following progress scores:

Reti 4.5-2.5

Euwe 4-1

Schelfhout 3-2

Willems 1.5-1.5

Graves 1.5-1.5

Addicks 1.5-3.5

Kroone 1-3

van Hartingsvelt 1-3

When the above 3 games are taken into account in this progress score, this leaves the difference from the previous progress score as:

Reti +0-0=1

Euwe +1-0=0

Schelfhout +0-0=2 [Schelfhout's 1-1 is 2 draws as he does not lose any games.]

Graves +1-0=0

Addicks 1.5-1.5

Kroone 1-1

van Hartingsvelt +0-2=0

The only player Reti hasn't played at this stage is Schelfhout.

So: *Reti-Schelfhout 0.5-0.5*

Schelfhout's other draw has to be against Addicks or Kroone. But he has earlier played Addicks.

So: *Schelfhout-Kroone 0.5-0.5*

Kroone thus has another draw, and the only player that it can be against is Addicks.

So: *Kroone-Addicks 0.5-0.5*

Euwe has already played Kroone and Van Hartingsvelt. So the only player left for him to beat here is Addicks.

So: *Euwe-Addicks 1-0*

This leaves wins by Addicks and Graves to be accounted for, and only van Hartingsvelt is left for them to beat.

So: *Addicks-van Hartingsvelt 1-0*

Graves-van Hartingsvelt 1-0

Analysis, Part 3

The difference from the last progress score to the Final score is as follows:

Euwe 2-0

Schelfhout 2-0

Willems 3-1 Addicks 1-1 van Hartingsvelt 1-2 Kroone 1-2 Graves 0-4 Euwe has Willems and Graves left to play. So: <i>Euwe-Willems 1-0</i> <i>Euwe-Graves 1-0</i> Schelfhout has van Hartingsvelt and Graves left to play. So: <i>Schelfhout-van Hartingsvelt 1-0</i> <i>Schelfhout-Graves 1-0</i> This leaves Willems with 3 wins, and Addicks, van Hartingsvelt and Kroone left to play. So: <i>Willems-Addicks 1-0</i> <i>Willems-van Hartingsvelt 1-0</i> <i>Willems-Kroone 1-0</i> This leaves Graves with 2 losses and Addicks and Kroone left to play. So: <i>Addicks-Graves 1-0</i> <i>Kroone-Graves 1-0</i> This leaves a win by van Hartingsvelt and a loss by Kroone unaccounted for. So: <i>van Hartingsvelt-Kroone 1-0</i> That completes the crosstable. "The game is afoot." —Sir Arthur Conan Doyle, 'The Abbey Grange'.

"Education never ends, Watson. It is a series of lessons, with the greatest for the last." —Sir Arthur Conan Doyle, 'The Red Circle'.

"The past and the present are within my field of inquiry." —Sir Arthur Conan Doyle, 'The Hound Of The Baskervilles.'

"How often have I said to you that when you have eliminated the impossible, whatever remains, however improbable, must be the truth?" —Sir Arthur Conan Doyle, 'A Sign Of Four'.

Twee partijen uit de A.S.C.

De volgende twee partijen werden in den negen-kamp van de Amsterdamsche Schaakclub gespeeld. In de eerste partij komt van Hartingsvelt's arglistigheid plotseling om den hoek kijken, zoo onverwacht, dat meester Reti, die onzen schaakbroeder nog niet door en door kent, er het slachtoffer van wordt.

In de tweede partij wordt Euwe's zorgeloos geopende partij in ernstig gevaar gebracht.

3. Kh7 and wins Two games from the ASC The next two games were played in the nine-way match of the Amsterdam Chess Club. In the first game, Van Hartingsvelt's cunning suddenly comes into play so unexpectedly that master Reti, who does not yet know our chess brother thoroughly, falls victim to it. In the second game, Euwe's careless opening game is put in serious danger.

His opponent wrests two pawns from him. But then Euwe suddenly wakes up. He plays the end of the game, helped by a premature exchange from Scheilffout, with full force and a draw is the reward for his effort. V es ti ndic h.

Euwe and Dr. AA Alekhine. Published by Swets and Zeitlinger, Amsterdam. Price f1.— This book arrives at the very moment that Alekhine is celebrating the greatest triumph of his glorious sea-racing career and has wrested the title of world champion from Capablanca, which, after 8 months of waiting in vain, we hardly thought about anymore, surprised us as a pleasant St. Nicholas gift. It contains the ten games of the meeting, of which Euwe was responsible for nine and Alekhine for the tenth. This edit is comprehensive and educational. Mr. E. Straat, wrote a foreword that increased the value of the work. The length of this foreword somewhat explains the long delay in publication of the book. The execution of the work was neatly done. De achtkamp in de A. S. C.

De achtkamp in de A. S. C. is nagenoeg uitgespeeld. Door zijn laatste partij te winnen (tegen Willems) heeft dr. M. Euwe, zonder een enkel verliespunt, 6 uit 7 partijen gehaald. Slechts Reti en Schelfhout vermochten hem een half puntje af te winnen. Van de partijen Willems—Kroone, Schelfhout—Graves en Schelfhout—Van Hartingsvelt zal het afhangen of meester Reti no. 2, 3 of 4 uitkomt. Hier volgt Euwe's laatste partij:

Euwe has won 6 out of 7 games without losing a single point. Only Reti and Schelfhout were able to beat him by half a point. It will depend on the games Willems—Kroone, Schelfhout—Graves and Schelfhout—Van Hartingsvelt whether master Reti no. 2, 3 or 4 carries out. Here follows Euwe's last game. Indian defense? White: J. Achtkamp Amsterdamsche Schaakclub.

De stand in den achtkamp der A. S. C. luidt thans: 1. dr. Euwe, 6 (uit 7); 2. Schelfhout, 5; 3. Reti, 4½; Willems, 2½ uit 5; Kroone, 1 uit 4½; Addicks en Graves, 1½ uit 6; Van Hartingsvelt, 1 uit 5. Willems heeft fraaie kansen om zijn twee resterende partijen te winnen en met meester Reti gelijk uit te komen. Euwe en Schelfhout verloren geen enkele partij. Waarschijnlijk zal Kroone zijn resterende partijen niet kunnen uitspelen. Tegen Graves staat hij beter, tegen Willems slecht.

Tartakover, 5 points; 4. Orbach, 4 points. Furthermore: Knoch, Kraemer, 2%; Bechsted, 1% and Van Holzhause, 1 point. Achtkamp Amsterdam Chess Club. The standings in the ASC eight-nation currently read: 1. dr. Euwe, 6 (out of 7); 2. Schelfhout, 5; 3. Reti, Willems, VA from 5, Kroone, 1 out of 4½; Addicks and Graves, 1½ out of 6; Van Hartingsvelt, 1 out of 5. Willems has good chances to win his two remaining games and come out equal with master Reti. Euwe and Schelfhout did not lose a single game. Kroone will probably not be able to complete his remaining games. He is better against Graves, against Willems. Bijz. VAS Winter Competition The standings in the victors' group of the VAS main class are: Weenink, 6 out of 5; Dr. Euwe, 3 out of 3; Dr. Carsten, 2 out of 4; Van der Kar, 2 out of 5; Kersten and Moldauer, 1½ out of 5; Schelfhout, 1 out of 3; Weltevrede, 1 out of 4. Yet the text move is not the strongest continuation, Ne6 is too strong and where White's bishop is missing, 17—18 the appropriate move here. Eg 13. 17—18; 14. Ne5—f3 Be7—d5, 15. Due to their freedom of movement, White's pieces are stronger than Black's bishops). 16. e5—f3 Qh4—g4; 17. h2—h3 Qg4—f5; 18. d4—5!
